J. R. Miller

Tennis Club Elects Officers.

A very successful meeting of the Didsbury Tennis Club was held on Tuesday of last week. It was notable especially for the interest shown as well as for the enthusiasm indicated. The Club evidently is going to have a good start this year.

After the financial report for 1924 was read by Secretary J. Boorman, the election of new officers was proceeded with, resulting as follows:—President, W. A. Austin; Vice-president, Dr. W. G. Evans; Sec.-Treas., Jack Pearson. Grounds Committee—Ben Robinson, J. Boorman, W. A. Austin, Miss Vera Saxton, Miss Martin.

The membership fees for the year were fixed at \$3.00 for the gentlemen and \$2.00 for ladies.

It may be added that the courts are now ready to play and it is hoped that a large membership will avail itself of the opportunity thus afforded.

Baseball Team Puts on War Paint.

With a considerable amount of enthusiasm, and looking forward eagerly to the ensuing season's play, Didsbury's ball players mustered their forces on Monday, April 19th, and assembled at the C.P.R. depot to make the necessary arrangements. Re-organization was decided upon, and after some discussion the election of officers was proceeded with, the result being as follows:

Hon. President, W. G. Liesemer; Hon. Vice-president, J. V. Berscht; President, Dr. Evans; Vice-president, Dr. Malmas; Sec.-Treas., Dr. Liesemer.

The ground committee will comprise the following:—H. Stauffer, Ward Keith, Geo. Julien.

Finance Committee—C. Cook, C. E. Reiber and T. Johnson.

The election of captain and manager was left to a future date.

It is expected that the league this year will comprise six teams. A meeting of this organization will take place at Carstairs on Wednesday of this week.

PROVINCIAL GOVERN'T SCHOOL BOOKS.

School books will be stocked and wholesaled by the department of education, and a new system of distributing all the texts required by the public and high schools will be in effect next autumn. A decision has been reached by the government to put into operation the new act passed by the recent legislature, by which the school libraries grant was increased to \$150,000, and it will be proclaimed forthwith.

Supplies of the books will be kept in stock, under this arrangement and will be shipped out on order to local school boards throughout the province or to teachers.

Books will be sold on a cost basis, which means the publisher's price plus the actual cost of handling and overhead.

Whether or not the government book selling service will be taken advantage of will depend it is pointed out, by Hon. Perren Baker, upon the action of the

Washouts, who entertained the well filled hall with novel and very amusing songs and sketches.

Time for Paint-Up

A new coat of Paint pays for itself many times over. It not only brightens up the building, but adds to its life considerably.

75 PER CENT. SEEDED MAY 1st, 1925.

It will probably be of some interest to recall at this time, that May 1st, 1925, witnessed a record seeding so far as the Didsbury district is concerned. Notwithstanding the severity of the preceding 1924-1925 winter, seventy five per cent of the seeding was completed on the date mentioned above.

In comparison with former years it stood as follows, May 1st in each year being taken for record—1919, ten per cent; 1920, none; 1921, 20 per cent; 1922, ten per cent; 1923, fifteen per cent; 1924, none.

BOX SOCIAL, HARMAT'N

A very successful entertainment box social and dance was held in the community hall at Harmattan on April 18th, the proceeds of which netted nearly \$100 clear for St. George's Church, Harmattan.

The members of the English church would like to take this opportunity of thanking the many ladies who so kindly brought boxes, and Mr. Phillipson for very ably auctioneering them.

We also feel very grateful to Mr. Charles Bacon for working so untiringly in the kitchen.

The program was much enjoyed, the special feature of the evening being the Westerdale

WORLD HAPPENINGS BRIEFLY TOLD

Luther Burbank was buried under the old Lebanon cedar tree that stands in a corner of his garden, across the highway from his home.

J. S. Woodsworth, Labor, Winnipeg North Centre, presented a petition in the house urging the payment of pensions to the blind.

The auxiliary schooner, Effie Morrissey, owned by Captain Robert Bartlett, of St. John's, Nfld., is being outfitted at Brigus for an expedition to the Arctic during the coming summer.

Silver plate and trophies from the German battleships Scharnhorst and Leipzig, sunk by the British off the Falkland Islands, have been discovered at Sydney, N.S.W.

Just after leaving Hong Kong harbor on a trip to Singapore, the British submarine L33 collided with a ferry boat. There were no casualties, but the submarine was badly crippled.

The fortified island of Relying off La Rochelle, believes it holds the world's record for the scarcity of the bob among its female population. In a population of 11,000 there is only one bobbed female head.

Eamonn De Valera, who recently resigned from Sinn Fein when the extremists among his republican followers refused to accept his proposal to compromise with the Free State, is forming a new organization to work for Irish freedom.

An air service across the Arctic, or at least the sub-Arctic regions, should be in operation within a few years, in the opinion of Commander George P. Mackenzie, who is in charge of the Canadian Government expedition which yearly visits the government posts in the far north.

Nearly a score of bills designed to enlarge quotas under the immigration restrictions law were rejected by the U.S. Senate immigration committee.

A million dollar art museum is to be erected at Yale University to house the rare and valuable collections now in its possession. The donors are anonymous.

The directors of Barclays Bank, London, in announcing a pensions scheme for women employees, state that on marriage women will be required to relinquish their positions on the staff. They will then receive a gratuity equal to 5 per cent. of their annual salary for every completed year of service.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Favorable Trade Balance

A balance favorable to Canada was maintained in the trade of the Dominion up to the end of February, a statement issued by the bureau of statistics shows. In that month imports to the value of \$70,908,980 were recorded, while imports were valued at \$87,512,147. For the twelve-month period ended February 28 last, exports reached a value of \$1,297,744,683 and imports \$911,167,955.

Children Looking For Work

190,000 in England Have Been Released From School

More than 190,000 British children who had attained the age of 14 were released from school and placed on a labor market which has little place for them.

In the past children were permitted to leave school on attaining the age of 14. This released them throughout the year, and it was possible for them to be absorbed in industry and commerce gradually.

Under the new system children who become 14 during a school term may not leave school until the end of that term. This makes so many applicants for positions the same time that employees say many of the children must necessarily remain idle for a considerable time before they can be absorbed into the industries.

Agony Of Lumbago Quickly Soothed Away By "Nerviline"

For the sharp, piercing pain of Lumbago, and the tormenting aches of Rheumatism, no liniment is so efficient, so quick to bring comfort and relief as good old "Nerviline." This wonderful liniment penetrates through the tissues very quickly, sinks at once to the core of the pain, draws the blood from the congested area, and thereby relieves the pain in a short time. Those who suffer from stiff joints, swellings and Rheumatic conditions should use Nerviline, the King of Pain destroyers. Get Nerviline today, 35c, at all dealers.

Princess Frock of Charm

This one-piece model of Chinese damask has kept itself as simple as a smart frock can—but it just couldn't help flaring gracefully at the lower edge. The upper part of the dress is cut on princess lines, slightly molding the figure. The V-shaped front opening is a very important style feature, and so is the scarf collar—and this dress has both. The long plain sleeves are finished with tab cuffs. No. 1245 is in sizes 36, 38, 40, 42 and 44 inches bust. Size 38 bust requires 3 yards 54-inch material, with 1/2 yard contrasting for reverse facings. Price 20 cents.

The secret of distinctive dress lies in good taste rather than a lavish expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

ON THE AIR

What is Doing in the World of Radio

Exports of radio apparatus from the United States to the remainder of the world have risen in six years from an item of less than \$1,000,000 to one that in the year just past was only a few dollars short of \$10,000,000.

South Africa is expected to follow the lead of Great Britain in licensing broadcast receivers, according to advices. A heavy penalty will be imposed on those who fail to comply with the licensing regulations.

Station KFJF, Oklahoma City, has been made defendant in a \$20,000 libel suit. The suit concerns statements made by Rev. Lincoln McConnell while the station was leased by him.

Sir Harry Lauder, world famous Scottish comedian, was able to save the price of a telegram while in London. He was broadcasting from station 2LO and, knowing that his wife who was in Glasgow was listening, he included a short message to her.

Radio broadcasters are eternally on the watch for promising material for their programmes and hold regular auditions for that purpose. Out of the ruck of the ordinary and average at times there emerges a distinctive voice or a splendid musician who compensates for the rest.

An interesting record in long distance radio reception on a moving train has been established by the Continental Limited, the transcontinental express of the Canadian National Railways. In picking up and holding for thirty minutes a broadcast from Vera Cruz, Mexico.

An automatically controlled radio telephone service is in operation between two private stations, one in Honolulu and the other on the island of Lanai, 60 miles distant. The system includes a bell ringing device to notify one end of the "line" that the other desires to converse. Power is supplied by storage batteries.

Restored Strength and Former Good Health

Quebec Lady Was Weak, Excessively Nervous, Depressed and Weighed Down With Lumbago

Mrs. E. Boyd Took Three Weeks' Treatment of Dodd's Kidney Pills and Amazing Results Followed.

Dunany, P.Q. — (Special). — That Dodd's Kidney Pills bring back health and strength is proved by the following statement from Mrs. E. Boyd, who resides at Dunany.

She writes:—"I took your Dodd's Kidney Pills because I was weak and excessively nervous. I was unable to work without feeling depressed, was also weighed down with lumbago and had no appetite. It has only taken a few weeks' treatment of Dodd's Kidney Pills to restore my strength and courage and former good health."

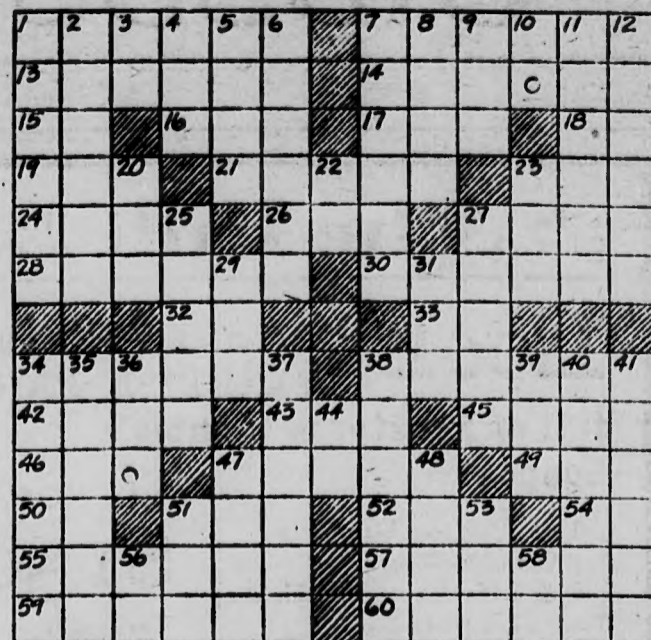

This statement speaks for itself. Ninety per cent. of the ills from which women suffer come from weak or diseased kidneys. They are the organs that strain all the impurities out of the blood. If they fail to do this, the impurities remain in the blood and are deposited all over the body.

Canada's Large Shoe Output

Statistics received by the bureau of statistics from 141 boot and shoe factories, out of a total of 159 factories in operation in Canada, show that 1,198,661 pairs of leather and felt footwear were manufactured during the month of January last. This total comprised 1,149,198 pairs of boots and shoes with leather or fabric uppers, and 49,463 pairs of felt footwear of all kinds of cloth slippers for house wear. These totals are exclusive of larrigans and shoebacks and Indian moccasins.

SUNDAY SCHOOL LESSON

APRIL 25

THE STORY OF CAIN AND ABEL

Golden Text: Am I my brother's keeper? Genesis 4:9.

Lesson: Genesis 4:1-26.

Devotional Reading: I. John 4:16-21.

Explanations and Comments

I. The Occupations of Cain and Abel, verses 1, 2.—To Adam and Eve, two sons were born, Cain and Abel. The Hebrew word for "I have gotten," is Kaneh whence our word Cain. Cain became a tiller of the ground, a husbandman, and Abel a keeper of sheep, a shepherd.

II. The Two Sacrificial Offerings, verses 3-5.—The two brothers brought each an offering to Jehovah. Cain's offering was the fruit of the ground; Abel's, the first-born of his flock, the greatly-prized fat pieces of which were offered in sacrifice. Compare Lev. 1:8; 3:3. "The origin of sacrifice is not explained, nor is an altar mentioned. Man is assumed to be by nature endowed with religious instincts, and capable of holding converse with God. Worship was men's mode of approach to the Deity; and sacrifice was its outward expression" (Dr. Herbert E. Ryle). "From the time of Abel onwards, sacrifices are uniformly, and with increasing clearness, set before us as the appointed way of approaching and holding fellowship with God, till we have the sacrifice of our Savior Jesus Christ."

Healthy Body Able To Resist Cancer

German Doctor Proved Statement By Experimenting On Himself

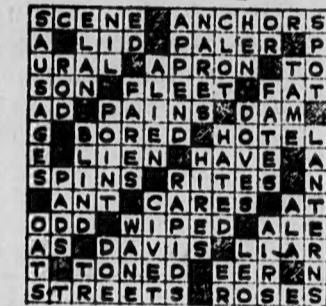

Cancer is not contagious when brought in contact with a healthy human body, in the opinion of Dr. Hans Kurtzahn, of the surgical clinic of Koenigsburg University. Dr. Kurtzahn astonished a convention of German surgeons in Berlin by reporting that he had experimented on himself, transferring a patch of cancerous growth from a patient's pectoral gland to his own thigh. The cancer cells, he reported, died shortly, being unable to live in a healthy body.

Study Of Dead Things

Millions of young people have spent years in school and college studying dead things without learning anything of the live subject of taking care of themselves, the most important in the world.—E. W. Howe's Monthly.

Minard's Liniment for colds

Answer to Last Week's Puzzle

Gov.-General's New Limousine

The Finest Car Ever Produced in the Dominion

The fact that the governor-general's new limousine, presented by Canadian war veterans, is the finest car ever produced in Canada is said to be largely due to the fact that war veterans employed in the plant at Oshawa, where the car was built, made a special drive on the job.

Everything for "Byng's car" got extra service and the men put the extra work into it as their contribution to Byng's gift. The presentation of the car was not the complete story, for the veterans have also provided for its insurance and even its transportation to London when his excellency returns to the motherland.

The Oil of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

Eat Apples With Skins On

Apples are more beneficial if eaten with the skins on, and also cooked with the skins on, because next to the skin comes a mineral and vitamin which the body needs. These are removed if the apple is peeled.

As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

A pedestrian used to be a person who walks. Now he jumps.

Some barefaced lies are old enough to have a full beard.

Strange, Romantic Love Adventures of the Flapper you know!

Joanna

by H. L. GATES

Copyright 1925 by H. L. GATES

CHAPTER II.—Continued.

Perhaps nothing else could have so completely restored the equanimity of Joanna. Somehow it brought her back to a realization of her fitness to meet and conquer all things—either her boss's chauffeur after ten, or her boss's banker before noon.

All the confidence in the world clustered under the shimmering gold brown of her ultra-modish bob as she followed the obsequious doorman into the marbled vastness of the metropolis bank and up to the door that bore the legend, "Andrew Eggleston."

CHAPTER III.

In the great, marble corridors of the banking institution, one of the principal hubs around which the financial affairs of a nation revolved, "Miss Twenty-seven of the silks" felt very

stood aside from herself and looked at "Miss Twenty-seven" as Joanna Manners, rich beyond dreams, suddenly announced protégée of some mysterious golden benefactor. But Joanna was, after all, matter of fact, material. Once, no doubt, she had believed in fairies. A little later than that time before both mother and father passed away from her, she even entertained some of her fairies in her own imagination, peopled her dreams with them after the fashion of Barrie. But of later years the fairies had not danced in Joanna's soul. There was laughter there, and many, many dreams; but no illusions.

So Joanna, convinced against her wills that something tremendous was happening to her, scorned herself for admitting such a possibility. She wanted to catch her guide, the liveried

She felt uncomfortable. The back of her neck burned as if someone were looking at it.

small, and useless, indeed. Something of the same sense of the futility—and all her pretenses, all her struggles to impress the world as one who had many more, oh, many more pairs of sheer silk hose than the one pair she really had, settled down upon her. It was again the feeling that depressed her while she sat, waiting, in that "Old Man's" office a few minutes before. In her hand she held her little leather-bound book with the cryptic entry of a date and a set of figures. This, however, was merely the symbol of a fantasy. For a brief five minutes in Mr. Graydon's office and when she entered the car she had

attendant, by the sleeve and force him to give her an accounting of his obsequiousness to her. But panic was not far from her weariness. Her breath began to come in tremulous gasps when the paneled door marked with the name of the great man she had been told would receive her, swung inward. She heard her guide announce her.

"The lady you are expecting, sir!" She was conscious of someone sitting at a great black table; someone who rose and glared at her without speaking; someone who was very forbidding, and, to the eyes of youth, very old and incapable of understanding any thoughts or emotions such as she might experience. In such a presence Joanna didn't know what to do. The man spoke her name. Surprisingly, just as it had been with Graydon, these pompous, important old men had voices that didn't rasp.

"Will you sit here?"

He pointed to a chair opposite him. Joanna, wholly helpless again, slid into the chair. After a while she realized that the man of whom she had heard so much as one of those mysterious money kings, still looked at her; that he had leaned back in his own chair and was just looking at her with queer lights playing in his eyes and something about his lips were quivering! It struck Joanna as screamingly funny. Not even the warning hand of doom could have prevented her, just then, from laughing. Andrew Eggleston smiled, too. But it was a fleeting smile. He was instantly grave and forbidding. And Joanna was frightened again. She felt uncomfortable. The back of her neck burned, as if someone were looking at it, or at her. She wanted to turn around, but merely moved in her chair.

The young man who still stood in the window embrasure at the other end of the room prepared to come forward. When he saw that the girl had not detected his presence he fell again to his silent inspection of the figure in the chair whose back was turned to him. The unpleasant, rather cynical smile played again about his mouth. Occasionally his glance took in the other figure, the old man

"DIAMOND DYE" ANY GARMENT, DRAPERY

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

whose whim ruled banks and markets and fleets of ships and, as some people often said, the policies of nations.

It was Joanna who, at last broke the fraught silence.

"Well, I'm here! I suppose you wanted to see me. That's what they said?"

"It was a natural desire," Eggleston admitted. "It is not usual, even in this bank, for new accounts to be opened with a deposit of a million dollars. It is not an inconsequential sum for anyone."

Joanna couldn't stand it any longer. "Won't you please give it to me straight?" she pleaded, earnestly, sitting forward in her chair so that her hands might rest on the big table. "Please!" she repeated, "I was all right when I got up this morning and everybody else was all right and there was never anybody in my family that went to the asylum. And there's nobody I ever knew who could leave me a million pennies let alone dollars except an uncle and he couldn't because I had to dig up two dollars a week for a year to pay the installments on his funeral. And I want to get back to my job or old Good Morning—I mean the department manager, will be as sore as a billy goat—I mean, he'll be angry. Please, Mr. Eggleston, what's it all about?"

Strangely, the girl's frantic plea affected the two men in the room differently. Eggleston nodded his head quite as if he agreed that something should be done to clear up the frenzy of doubts and confusion that must be flooding the shop girl's mind; and he smiled again, pleasantly, as if warmed by some inner satisfaction. But the smile that had been about the mouth of the other man, whose presence Joanna had not yet detected, suddenly vanished. He regarded the back of the girl's neck, his gaze seeming to reach around and encompass her, with a new sort of interest. Still, there was doubt in his eyes.

The banker reached into his table drawer and brought out a folded check book, the daintier kind that are shaped for the hand bags of women. With elaborate pains he opened the book, bent back the crease in the sheaf of blank checks which it contained, and, thus spread out, he shoved it toward Joanna's hand. From his pocket he took his own gold fountain pen, opened it, and held it out to her.

Isn't there a homely saying that runs something like this?" he said. "The proof of the pudding is in the eating? It seems that I have heard

RASH COVERED FACE AND NECK

Caused a Lot of Pain, Itched Badly. Healed by Cuticura.

"My trouble began with a rash of pimples that covered my face and neck. The pimples grew larger and started to fester, causing a lot of pain. They itched badly and I was very restless at night. The trouble lasted four months."

"A friend advised me to try Cuticura Soap and Ointment so I purchased some, and after using three cakes of Cuticura Soap and one box of Cuticura Ointment I was completely healed." (Signed) Miss Martha Martene, R. 2, Crediton, Ont., Nov. 3, 1925.

Daily use of Cuticura Soap, with touches of Cuticura Ointment now and then, keeps the skin fresh, smooth and clear. Cuticura Talcum also is ideal for the skin.

Sample Each Free by Mail. Address Canadian Depot: "The Cuticura Co., Ltd., Montreal." Price, Soap 5c, Ointment 15c and 30c. Talcum 10c. Cuticura Shaving Stick 25c.

that expression, and it is very apt, though a little old fashioned perhaps. You may draw your first check for whatever amount you like. I will have the money brought you."

Joanna looked at the unfamiliar check book, at the fountain pen which she had taken involuntarily, and then at the banker.

"I am sure Mr. Graydon explained to you, or didn't he? That you are not to know the answer to either of those two questions—yet. Someone who wants you to have it, someone whom the bank, and I, know very well and in whom we have complete trust as to his motives, has put the fortune at your disposal. He has even directed the bank to replenish the fund if you meet requirements beyond the initial deposit—until such a time as he may give further directions."

"You mean that after a while he will give me directions?"

"Not at all." And in the tone of the banker's promise, more than in his words, Joanna knew that whatever might be the outcome of this fantastic conversation, she would not need ever to ask that question again.

(To be continued)

Would Warrant Nobel Prize

Chicago Doctor's Discovery Lowers Menace of Scarlet Fever

Dr. William H. Park, director of the vaccine laboratory, of the City of New York, told physicians attending a joint meeting of bacteriologists and pathologists at Albany that discovery of the germ of scarlet fever and development of a cure by George Dick, of Chicago, assisted by his wife, Dr. Gladys Dick, had virtually conquered the disease in the last two years. Dr. Park said in his city of about 6,000,000 people he expected only about 175 deaths from scarlet fever to be recorded this year. One of the physicians discussing the serum estimated in one year in New York it saved more lives than most physicians do in a lifetime. In the opinion of the eminent physicians attending the local meetings, the Nobel Prize in Medicine, if it had been awarded this year, would probably have gone to Dr. Dick.

Little Helps For This Week

In all thy ways acknowledge Him, and He shall direct thy paths.—Prov. III, 6.

Being in doubt, I say,

Lord, make it plain!

Which is the truly safe way?

Which would be vain?

I am not wise to know,

Nor sure of foot to go;

My blind eyes cannot see

What is so clear to Thee

Lord, make it clear to me!

—Anna B. Warner.

We only lose our way when we choose our own aim. Whoever seeks God's will alone finds it everywhere, whithersoever God's providence leads him; and so he never goes astray. True resignation, having no selfish path, and no aim at self-pleasing, goes always straight on as God pleases.—Fenelon.

Waves Measured By Camera

Length of Largest Said to be Nine Hundred Feet

Ocean waves have at last been measured by a specially constructed camera. Ordinary waves are from 6 to 12 feet high. In a high sea they may rise to 27 feet, or in a violent gale to 36 feet. The length of the largest waves, from crest to crest, is said to be 500 feet, and it takes twenty seconds for one wave to replace another. The tidal wave that followed the Lisbon earthquake of 1755 was 60 feet high, and a tidal wave off Peru once lifted a ship clean over a church and left it a mile inland.

Was A Jury Case

A prisoner who had served prison sentences for a score of offences appeared before a police magistrate on a charge of burglary. He was asked the usual question, "Guilty or Not Guilty?" "Yes," was his monosyllabic reply. "What's that?" the judge asked shortly. "I was asked if I was guilty or not guilty, and of course I am," the prisoner exclaimed. "But which are you?" the judge inquired. "That," said the hardened one without a smile, "is for the jury to decide."

Twenty days are necessary to complete the processes of making a one-dollar bill.

Germans Make Alcohol From Glass

We are told the Germans are now making alcohol from glass and in this line as well as iron and steel trade, German competition is making itself felt as far as India. They can produce synthetic methyl alcohol at a considerably lower cost than wood alcohol and are strongly competing with the United States.

THE ONLY MEDICINE BABY HAS HAD

Is What Thousands of Mothers Say of Baby's Own Tablets

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else. Experience teaches her that they are without an equal for relieving baby of any of the many minor ailments which afflict him at one time or another. The Tablets never fail to be of benefit—they cannot possibly do harm as they are guaranteed to be free from all injurious drugs.

Concerning Baby's Own Tablets Mrs. Russell Hill, Norwood, Ont., says: "I shall always have a good word to say for Baby's Own Tablets. I have given them to our baby girl. In fact they are the only medicine she has ever had and I am proud to say that she took second prize at our baby show. She is eleven months old and weighs 22 pounds. No mother whose child is peevish or ailing will make a mistake in giving it Baby's Own Tablets."

Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Employer.—Really, Tomkins, your figures are disgraceful. Just look at that three. Anyone would take it for a five. Clerk.—It is a five, sir. Employer.—Well, I should have sworn it was a three.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectually that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

Barber: Sir, you are next. These three ladies came in after you did.

Customer: Go ahead with them, I'll wait. They are my daughter, my wife and my mother.

LEG SORES

ARE CURABLE. If you suffer from Leg Sores or Varicose Ulcers, I will send you ABSOLUTELY FREE, a copy of my famous book that tells how to be rid of these troubles for all time by using my remarkable painless treatment. It is different from anything you ever heard of, and the result of over 35 years' specialization. Simply send your name and address to Dr. H. J. WHITTIER, Suite 22, 421 East 11th Street, Kansas City, Mo.

YOUNG WOMEN SUFFER MOST

These Two Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Ayer's Cliff, Quebec.—"I have been teaching for three years, and at the end of the year I always feel tired and have no appetite. I was a awful sick each month, too, having pains in my back until sometimes I was obliged to stop working. A friend recommended Lydia E. Pinkham's Vegetable Compound to me and I heard many women telling how good it was so I thought it would help me. And it did. Now I take six bottles every year and recommend it to others." —DONALDA FANTEUX, Ayer's Cliff, Quebec.

"Unable to Work" Canning, Nova Scotia.—"I had irregular periods and great suffering at those times, the pains causing vomiting and fainting. I was teaching school and often for some hours I would be unable to attend to my work. Through an advertisement in the papers I knew of Lydia E. Pinkham's Vegetable Compound, and it has been of great benefit to me, the troubles being completely relieved." —LAURA J. EATON, Canning, King's County, Nova Scotia.

Victory Bond Interest

When your interest coupons become due, or when you receive cheques for interest on registered bonds, deposit them in a Savings Account in the Bank of Montreal. The money you receive on your investment in bonds will then earn interest for you.

More Power

LESS GASOLINE
with the Famous
Valve-in-Head Motor
of the Better
McLAUGHLIN-BUICK

FOR over seventeen years the McLaughlin-Buick Valve-in-Head motor has proved its worth to owners. A positive proof that the Valve-in-Head principle is correct.

The net result of the Valve-in-Head construction is more perfect combustion than any other type of motor—less loss of heat resulting in greater power with less gasoline consumption.

Improved carburetion and manifolding has contributed to the increase in power in the Master Six, which is 75 h.p.; and Special Six, 60 h.p.

Only when you have driven the Better McLaughlin-Buick will you realize fully the power—speed—and inexpensive performance—one of the many reasons for the popularity of McLaughlin-Buick.

The new low GMAC financing rates are available to purchasers of McLaughlin-Buick on time.

SAVE the FOREST.

IT PAYS.

Local and General.

There is little need to stimulate the residents of Didsbury to engage in cleanup week. Wherever one goes there is evidence of the activity in progress. Basements and outhouses are being disgorged of their winter contents and old rubbish is very much in the discard.

The time set aside for the general cleanup is until May 1st.

There are few citizens, if any, who need to be reminded that cleaning out old rubbish in the spring is a good thing for health and life. It all means safeguarding health and checking disease. It promotes thrift, and prevents fire hazards. It is a good thing for civic pride, and makes the whole town brighter and more attractive.

Painting is a good thing to do in the spring of the year. A coat of paint will add to the value and attractiveness of any structure, and those citizens who can go to the expense of painting, which after all is not very great, are asked to do so.

There are a hundred and one jobs to be done round the house and garden, and with every citizen working to the one end, that of cleaning, painting and repairing, the whole will result in a cleaner and brighter town, "Do It Now."

Birth—On Sunday, April 25, to Mr. and Mrs. Dave McEwen, twin boys.

Birth—On Monday, April 26th, to Mr. and Mrs. Henry Harder, a daughter.

Kendrick and Good shipped two cars of fat cattle last week to the Morantz Beef Co., Montreal.

Westcott has set its sports day for July 14th, and a very interesting program is being arranged.

Miss Legault and A. L. Loomis, of Olds, spent the week-end at the Rosebud Hotel as the guests of Mrs. Harmer.

Frank Ingham of Harmattan left on Sunday for England via Montreal and C.P.R. S.S. Montrose.

Mr. and Mrs. W. H. Stark of Long Beach, Cal., formerly residents of Didsbury, were visiting old acquaintances here last week.

Mr. and Mrs. Langton Little of Calgary spent the week end with Mr. and Mrs. J. A. Ruby before leaving for their new home in Spokane.

Pharl Ruby announces she will be in Didsbury only three days a week—Monday, Tuesday and Friday, and every evening. Make appointments early.

The C.G.I.T. will hold a tea and candy sale at the Opera House, on Saturday, May 8th. Proceeds will be devoted to girls' camp at Sylvan Lake.

The Mayor's appeal for a clean-up is getting results. Monday morning, for instance, we noticed that whilst Postmaster Morgan was discarding old records, A. Brusso was throwing out the municipal safe.

Collinge Bros. of Didsbury have purchased the north-west quarter of 26-31-2 from G. Enders of Defiance, Iowa, the deal being put through at the office of Reed and Reiber.

The shareholders of the Sunburst Oils Co. are wearing bright smiles these days. The oil from their Northern Montana wells ran 400 barrels in March over any preceding month, principally from one well which joins the new wells to be drilled this year.—Red Deer Advocate.

The Trail Rangers and Tuxis boys' groups intend giving a

mother and son banquet on Tuesday, May 4th. It has not been determined where it will be held, but all boys who are not members of the above groups and who are desirous of bringing their mothers, will please apply to J. Boorman, or Russell Berscht, before Saturday, May 1st. Further particulars will be announced later.

Practically all the town of Olds will be under lease for oil and gas rights by a Didsbury resident, if the application for lease on the east-half of section 12, township 32, range 1, west of the 5th meridian, which is now under consideration at Ottawa, is granted. Old-timers of Olds have frequently spoken of indications of gas at shallow depths, and if any drilling for gas or oil is attempted near here, a real bonanza of an oil well may be struck. Evidently someone has their "peepers" focused on Olds as a real prospect.—Olds Gazette.

A meeting of the Didsbury constituency executive was held at Acme Saturday, and plans were arranged for the coming convention, to be held there some time in June. President Clark, of Didsbury, was unable to get here on account of car trouble. A. B. Claypool, Mr. and Mrs. Hart, of Swallow, and Mrs. Harry Bradyn were among the out of town members. The June convention will be of special importance, as a farmer candidate for the coming election will be chosen. Indications point to Mr. Claypool as the nominee. Labor is not expected to enter a candidate in this field.

Bert Cressman, Thos. Johnson and Sid Watt played over the Downess golf course, Calgary, during the week-end. Bert is showing wonderful results for a new golfer.

A number of friends spent a very enjoyable evening at the home of Mr. and Mrs. Wm. Wilson on Friday, April 23rd. Cards and dancing were enjoyed by all, music being supplied by a victrola, also Mr. and Mrs. Ed. Weber who played some very good old time music on the violin and auto harp.

A very dainty lunch was served about 12 o'clock, after which John Metzgar, spruce of the evening, presented Mr. and Mrs. Wilson with a purse along with a very fitting speech. Mrs. Wilson returned same.

GOLF CLUB EXPECTS SUCCESSFUL YEAR.

The golf club have made arrangements with Mr. Parsons for a nine hole course. This is being laid out. Greens will be sanded and oiled and prospects are for a real first class club. Until the new course is laid out prospective members may play on the old course. A qualifying round will be played shortly and a competition started. The club wants new members to join up, you will enjoy it.

Last week the golf club organized and the following officers were appointed:—President, Sid Watt; vice-president, J. R. Miller; sec.-treas., James Clark; committee, A. Brusso, W. J. Derby, J. McCloy, H. Chambers and J. Julien. The fees for men will be \$5.00, for boys \$2.00 and ladies \$1.00.

PREPARING ANNUAL CENSUS.

Preliminary preparations are now being made for the census taking in Alberta, under the Dominion government, and it is understood that E. S. McPhail, superintendent of the department of statistics, who is now in Edmonton, will arrive in Calgary this week to meet the enumerators who will direct the census taking in the Calgary district. J. P. MacArthur has been appointed enumerator for the Federal constituency of East Calgary and A. H. Carr will act in this capacity for West Calgary.
The census will be taken officially on June 1 and is known as the quinquennial census, which applies only to the western provinces will be grand. It is understood that the returns will not be made public from Ottawa until late in the summer.

Interesting Budget from Westcott.

Seeding is the order of the day. The Levagood family, accompanied by O. Sande and C. R. Ford, spent Sunday out west. Mr. C. McFarland has been sick with the flu the past week. Mrs. Fred Snyder spent a few days last week with her sick daughter at Craigmile. Mr. and Mrs. C. C. Rhinehart spent Sunday at Mr. and Mrs. C. C. H. Rhinehart. Mr. Bentz is working for H. D. Brown. Mr. H. Tuggle and son Norman and Mrs. Blanche Perrin spent Sunday evening with Mr. and Mrs. Ira Scott. Mrs. J. Hughes, sen., and Wallace spent Sunday last at Ed. Klink's. Mr. H. D. Brown is confined to his bed with heart trouble. We hope he will soon be around again. Why does a blue car stop on the road at night? Is it a sign of trouble, or an indication of a well trained car. Mr. and Mrs. W. Wilson, accompanied by their nephew Ira Lonev, spent Sunday with Mr. and Mrs. J. A. Hughes. Mr. and Mrs. Ben Hunsperger of Didsbury have been visiting in this community lately. Mr. and Mrs. J. A. Hughes spent Sunday last with the Moor family at Westerdale. Mr. and Mrs. C. C. Rhinehart visited friends at Jackson on Sunday last. Mrs. Harry Brown and family spent part of Sunday last visiting C. H. Rhinehart's.

The Literary Club held a meeting at the Westcott school on Friday last and a splendid program was enjoyed by all. It was decided to postpone the next meeting for a month, which will then be held on Friday, May 14.

Misses Doris and Edith Murphy, accompanied Mr. Reimer on his circuit to Zella Sunday, after which they visited friends in that district.

Miss Lily Snyder spent Sunday with Mr. and Mrs. T. A. Murphy.

Mr. and Mrs. A. Russell and family have moved into the house of Mr. J. F. Moir's.

Mr. M. Ford visited in this community Sunday last, and we wonder if his visits will continue.

Mrs. C. H. Rennie returned from her extended trip to Los Angeles, where she has been visiting with her daughter and friends.

Obituary.

On April 23, 1926, there occurred at the Didsbury General Hospital, the death of Rebecca Boyde Norton, wife of John Norton of Olds. She was the mother of Mrs. James Schmelke of Didsbury, Mrs. H. Schmelke of Olds, Mrs. F. Schmelke of Seattle, and H. H. Norton of Gadsby, Alta.

She was born in Edinburgh, Scotland, March 16, 1860. The daughter of Wm. and Grace Newell, the grand daughter of David Kerr, at one time the dean of Edinburgh University.

Mrs. Norton's home had been at Red Lodge for the last twenty years, where she had a large circle of friends. Her life was

devoted to helping others, comforting the sick, and cheering all who were fortunate enough to know her. Her friends will always remember her loyalty and generosity, which was unsurpassed. She was a sweet singer and her voice was often heard in our public entertainments, and will live on in the memory of her loving friends.

The interment took place in the Olds cemetery, after a short service conducted by the Rev. Herbison of Olds, at the residence of her daughter Mrs. Jas. Schmelke. A solo "Home of the Soul" was beautifully rendered by Miss Elsie Stock of Olds. This selection will be remembered by her friends as a favorite of the deceased as she had rendered it on like occasions.

A number of friends from her old home at Red Lodge, Olds, Bowden and surrounding country, met with the Didsbury friends to pay their last tribute of love and respect to their old friend who has won a lasting place in the memories of all who knew her. "To live in hearts we leave behind is not to die." The floral offerings were many and beautiful. Let us think with the old Thibetan poet—

"There is no death! Things do but change their form. To die is but to cease being that which one has been, In order to be anew, forever and forever."

CARD OF THANKS

To those who assisted us in our sad bereavement, and those who sent floral offerings, we wish to extend our heart felt thanks.

(signed) John Norton, Grace Schmelke, Lola Schmelke, Maud Schmelke, Harry Norton.

RED ROSE TEA

"is good tea" TEA

You've been intending to try Red Rose sometime. Why not now?

Canada's Mineral Wealth

Canada appears to be on the eve of a very marked development of the natural resources in minerals which it is well known the Dominion has in abundance but the development of which have, for a variety of reasons, been neglected. In this new era of activity in making these resources available for use, every section of the Dominion will, apparently, have a part, although the most noticeable activity will prevail in Quebec, Ontario and Manitoba.

In Quebec, one of the largest schemes of hydro-electrical development in the world is to be carried out on the Saguenay River by United States capitalists. It is predicted that ultimately this development will rival the huge undertakings of the Ontario Hydro-Electric Commission at Niagara, creating additional hundreds of thousands of horsepower. A huge aluminum manufacturing plant is to be erected, with the result that an entirely new city will arise in the ancient province.

During the past year or two Ontario has been steadily forging to the front as one of the world's greatest gold producers, and 1925 proved to be a record year in this respect. Now with the rush into the newly discovered Red Lake district, and a great awakening of interest in the mineral resources of the province, and increased prospecting, the probabilities of a further substantial increase in production and of the ascertained mineral wealth of the province are exceedingly bright.

Some of the most encouraging features of the situation are, however, in Manitoba. At long last, a large sum of money is available for development of the famous Flin Flon area. There is in immediate prospect a \$12,000,000 investment of a mining property with nearly \$200,000,000 of gold, zinc and copper in sight, including the establishment of a smelter, thus making possible the development of other mines in the same district, many of which are said to outstrip the Flin Flon in richness of ore. The Government and Legislature of Manitoba are co-operating in the matter of providing necessary railway facilities through the construction of a new line from the Hudson Bay Railway to the Flin Flon mine. A Bill to incorporate the railway has already passed second reading in the Legislature.

In both Alberta and Saskatchewan increased interest is being taken in the discovery and development of promising oil-bearing properties, and while many of these are still of unknown value, geologists are convinced that oil will ultimately be found in both provinces in large and paying quantities. Furthermore, it is absolutely certain that to a greater extent than ever before the huge coal deposits in these two provinces will be utilized to meet Canadian demands and make the Dominion less dependent than formerly on foreign fuel supplies.

These developments are all highly gratifying from a national standpoint. As has been urged repeatedly in this column, it is only through the development of its natural resources that Canada can prosper, secure much needed population, provide increased traffic for its large railway mileage, and ultimately pay off its heavy war debt. Every sound scheme of development is to be welcomed and encouraged.

At the same time a note of warning to the general public is in order. Gold and other mineral discoveries have in them an element of romance, they capture the imagination of people, and arouse great enthusiasms. Men without any scruples take advantage of the resulting excitement, organize paper companies, issue glowing statements and prospectus, promising to make all who invest rich overnight. They never tell of the many who have invested and lost, but recite the stories of the few who have made fortunes out of a paltry sum.

This is a time, therefore, for people to be on their guard against the smooth tongued salesmen of mining stocks and options. Unquestionably there are good and sound investments to be made, but before risking any money people should make the most careful inquiry into the merits of the proposition submitted to them and investigate it fully. There are avenues open through which responsible reports can be obtained, and advantage should be taken of these before any money is paid over, or any undertakings signed. As a rule, any proved mineral property can obtain the capital desired for its development; it is the wild-catter who through sensational advertisements goes out to catch the unwary and gullible, offering one dollar stock for five and ten cents. If it was worth a dollar, that is the price that would be demanded. The strong probability is that it is not worth five cents, or anything.

Canadians should wholeheartedly welcome and encourage all legitimate prospecting and development of the Dominion's mineral wealth, but, not only for their own sake as individuals, but for the good name and sound progress of Canada itself, should frown down upon and have absolutely nothing whatever to do with the professional mine wild-catter who knows little about mining or minerals, and whose operations serve to "under mine" confidence in Canada and retard its development and progress.

Her Nerves Were "All Broken Up" She Could Not Sleep

Mrs. David Gallagher, 37 Lyndhurst Ave., Hamilton, Ont., writes: "My nerves were all broken up and I could not sleep at night, and I would have to get up out of bed and walk the floor for hours at a time."

After Using a Box of

I Began To Feel Much Better, and after using a few more boxes I could enjoy my rest as well as ever I could."

McKim's Directory Of Canadian Publications

Reliable Source of Information is Available For the Public

A. McKim Limited, Canada's largest advertising agency, has just issued the 1926 Edition of McKim's Directory of Canadian publications. This is the nineteenth edition, the first issue having appeared in 1892, and each succeeding number has shown an improvement over the previous one. This publication is generally accepted as a reliable source of information on Canadian publications and as well is regularly consulted for geographical and statistical particulars. Each year sees changes in the Canadian publishing field and as far as possible these changes are accurately indicated in each issue.

Some savages of South America treat their wounds by the scientific process of exposing them to sunlight.

Minard's Liniment used by physicians

Oppose Attempt To Scale Mount Everest

Priests of Tibet Have Closed Road to All Expeditions

According to a recent dispatch from London, the Dalai Lama of Tibet has finally closed Mount Everest against further attempts to gain its peak, the highest point on the world's surface. This means that Tibetan ruling authorities have reverted to their older policy of exclusion. It had been temporarily abandoned when sanction was given for the previous British expeditions, permission being granted after friendly pressure had been brought to bear by the Indian Government, and that recourse would no doubt have been again made had it been desired. But Captain J. D. L. Noel, the British army officer, who acted as official photographer to the expeditions of 1922 and 1924, is frankly skeptical on the point. In his report he states:

The priests who govern that part of Tibet are now definitely opposed to expeditions up the mountain. They don't like the loss of life that so often occurs, and they cannot understand why we want to reach the top. Neither the sporting spirit nor the curiosity of geologists, botanists and zoologists is comprehensible to them. They think that we have some ulterior motive which we will not disclose. A hunt for treasure, for example.

MUCH SUFFERING FOLLOWS INFLUENZA

Health Can Only Be Restored Through the Use of a Blood-Making Tonic

An epidemic of influenza, such as is now prevalent in many parts of Canada, always leaves widespread suffering in its wake. The disease itself is dangerous, but the danger is seldom over when the characteristic symptoms of the trouble have passed. There is left behind depression of spirits, weakened vital powers, thin blood, impaired digestion and over-sensitive nerves. Men and women who were robust before stricken with influenza find their bodies racked with pain previously unknown to them. This is due to an abnormal thinning of the blood and leaves the system an easy prey to other serious troubles. This is the time when the convalescent from influenza should build up the blood with a reliable blood-making tonic such as Dr. Williams' Pink Pills. When the blood regains its rich red quality the nerves recover their strength and the organs of the body function naturally and the dangerous, depressing after-effects of influenza disappear. Proof of the undoubted value of Dr. Williams' Pink Pills as a blood-builder and nerve tonic is shown by the case of Mrs. R. O. Stromberg, Cobalt, Ont., who says: "I had a very severe attack of grippe, or influenza, which confined me to my bed for a week. On getting up again I did not recover my usual strength. I was very weak, had a severe pain in my head, and a constant backache. I had to get a woman to do my work for me as I had neither the strength nor the energy to do anything. At this stage, remembering the great benefit I had through Dr. Williams' Pink Pills in girlhood, I began taking this medicine, and soon my strength began to return. I am now able to do all my own work again, and take care of my baby boy. I am very grateful for what the pills have done for me, and hope my experience will be of benefit to some other sufferer."

If you need a blood-building tonic begin taking Dr. Williams' Pink Pills today. Sold by all medicine dealers or sent by mail at 50c a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

Coal Production Increased

Total coal production for 1925 in Alberta was 5,883,394 tons, an increase of 679,000 tons over 1924, according to the report of the provincial mines branch. The report also shows that 1,148 tons of tar sands were taken from the McMurray field.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Construction engineers have found that men and women weigh twice as much when excited as when sitting quietly.

MURINE
Keeps EYES
Clear, Bright and Beautiful
Write Murine Co., Chicago, for Eye Case Book

We want you to make this test

We want every weak, puny, fagged-out man and woman in America to make this test: buy one bottle of Tanlac at your druggist's, take it according to directions for one week and see how quickly you get started back to full strength and vigor.

We know what we are talking about. Tanlac has helped millions. In our files are more than 100,000 letters of praise from grateful users.

Don't confuse Tanlac with ordinary patent nostrums. It is Nature's own tonic and builder, compounded from roots, barks, and herbs that we gather at great expense from the four corners of the earth.

Tanlac goes straight to the seat of your trouble; cleanses and purifies the blood stream; puts your digestion in proper shape. First thing you know you have an appetite like a starved child. You rest at night and your whole body begins to feel the stir of strength and energy.

Don't you be discouraged. Don't put off testing Tanlac another day. Get a bottle now and in a week you should notice signs of real improvement. Then you

Thanks Tanlac for Renewed Health

"My gratitude to Tanlac is unbounded. Splitting headaches, nervous indigestion and insomnia shattered my health. I lost the ability to rest quietly, day or night. Now my nerves are steady, appetite keen and I enjoy life as of old."

Henry Sholer
173 Edinburgh St.
Peterboro, Ont.

will feel like your old self again. Take Tanlac Vegetable Pills for constipation.

Frenchman Will Try Trans-Atlantic Flight

Famous Ace Plans To Compete For \$25,000 Prize

It is reported that Captain Fonck, the famous "Ace of aces," intends to compete in the \$25,000 prize for a direct New York-Paris flight. He will make the attempt during the month of May, using an American plane with three engines of French manufacture developing 400 horsepower. The airman will take off from Central Park and land in the Bois de Boulogne in Paris.

Captain Fonck said it might be a bit premature to make any too definite statements concerning the details of the flight, which might well be modified before the attempt finally is made.

"It is a big job to undertake to fly a distance of 6,000 kilometers," he said. "It cannot be carried out without the most careful preparation in every smallest detail." But the famous airman expressed confidence the project would sooner or later become an established fact and the two capitals linked together by air.

An Oil without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

Taking Squeak Out Of Shoes

The Boot Trade Research Association at Northampton, Eng., has announced discovery of a treatment for preventing patent leather shoes from cracking. A new method of taking the squeak out of footwear also has been found.

Mrs. Robert Vyse

—The Shaw Studio

Hamilton, Ont.—"Dr. Pierce's Favorite Prescription is the greatest help to women of any medicine there is. It is especially beneficial to the expectant mother, as it keeps her physically fit at all times. My mother was a great believer in this medicine, and during my first expectant period she had me take it and I got along splendidly—kept well and strong and was able to do my work right up to the last. I had practically no suffering and had a very healthy baby. I took a few bottles of the 'Favorite Prescription' afterwards, which helped to bring back my strength."—Mrs. Robert Vyse, 139 West Ave. North.

You'll soon feel better if you obtain this Prescription at your nearest drug store, in tablets or liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for trial pkg.

Hawaiian Mermaid Sets New Swimming Mark

Miss Marichen Wehslau, famous Hawaiian swimmer, of Honolulu, photographed at the Crystal Gardens, Victoria, where she recently wrested Canadian swimming honors from Miss Hazel Kesler, of Winnipeg, in the 220-yard indoor swimming competition, making the distance in 2:52 2-5, the previous record for Canada being 3:15 2-5 made by Miss Kesler, at Winnipeg, in 1923. Since the opening of the Crystal Gardens by the Canadian Pacific Railway last season, this is the second time that swimming records have been broken in its 150-foot tank. Just a few months ago the famous Johnny Weissmuller and Conrad Milo, of the Illinois Athletic Club of Chicago, made new world's records there, bringing the attention of swimmers everywhere to this already well-known sea-water tank on the British Columbia coast.

"Mummy, isn't that monkey like Grandpa?"

"Hush, darling! You mustn't say things like that."

"But the monkey can't understand can he mummy?"

Ringling Brothers began their circus career by showing a goat called Billy Rainbow at an admission charge of one cent.

Minard's Liniment for sore throat

RUST RESEARCH WORK CONTINUES TO BEAR FRUIT

Winnipeg.—Rust research workers continue their experiments to eliminate a menace which annually costs millions of dollars to the agriculturists of Western Canada, and at a conference here reports of steady progress were made. Interesting details were contained in reports submitted.

"It is not expected that a variety of wheat will be obtained that will be entirely resistant to all the biological forms of stem rust and desirable from every standpoint," declared Dr. C. H. Goulden, a member of the research laboratory plant here.

Dr. Goulden, however, was confident "strains will be obtained which combine partial resistance to the most virulent forms of rust, together with earliness and good milling quality."

The finding of such varieties, said Dr. Goulden, would reduce the loss from rust throughout Western Canada by 75 per cent.

Says Technique Of Peace Is Ended

Military Training in Canadian Schools
A Mistake Opinion of Woman
Member

Montreal.—"We have developed the technique of war, but we have never developed the technique of peace. Increase the purchasing power of a people and you will stimulate commerce and end unemployment. War brings good times, but a terrible depression afterwards," said Agnes MacPhail, M.P. for Southeast Grey, who addressed a meeting here.

"We have dressed up a grinning monster in place of patriotism," she said. "War is made out to be the great adventure. We all react to military music. All want to do the knightly and heroic thing. Real patriotism is the contribution to our upward climb. It is a mistake to have military training in all the great schools of Canada. We are each personally responsible for the thrusting of a military machine onto the youth and children of the country. There is a general feeling that it has gone long enough, that we must get the military machine out of Canada," she said.

New Pretender To Throne Of France

Officer in Dutch Army Lays Claims to
Mythical Crown

Paris.—Green posters upon walls of Paris buildings announce a new pretender to the throne of France, in the person of Henry of France, Duke of Normandy, and now an officer in the Dutch army, who contests the claims laid to the mythical throne by the Duke of Guise.

The family from which both the Duke of Normandy and the Duke of Guise are descendants dates its royalist connections from 888 A.D. Since that time it has furnished 39 kings of France, four emperors to Oriental countries, seven kings to Spain and 29 kings to Portugal.

The posters just put up violently attack the claims of the Duke of Guise, charging that the immediate family of the Duke of Guise paid for the execution of Louis XVI. and Marie Antoinette.

Fear Forest Fires

Victoria.—With forests drying up during an unusually early period of warm, dry weather, and no relief in sight, officials of the provincial forestry service regard the forest fire situation on Vancouver Island with alarm. A lengthy period of drought, with high temperatures, is predicted by the Dominion Government weather bureau and if this forecast is made good the island may soon face the worst fire situation in its history.

Charged With Espionage

Paris.—Two foreigners, believed to be Italians, have been arrested at Nice, charged with espionage. The Matin asserts talk is common throughout Italy of an alleged plan to get back Nice, which was ceded by Italy to Napoleon III. in 1860, for his aid in freeing Italy from the Austrian yoke.

Move Reindeer Closer To Alaskan Railroad

Lack of Marketing Facilities Menaces
Living of Eskimo Herders

Anchorage, Alaska.—A great reindeer drive which will take two years and for a spectacle rival the big trail movements of Texan herds in frontier days, will be undertaken in an effort to revivify an industry now menaced by lack of marketing facilities.

Under the direction of George Ashenfelter many thousand head of both government and privately-owned deer will be driven overland from the Arctic to Broad Pass on the Alaskan Railroad. The drive may be as large as 50,000.

A similar plan conceived two years ago by the bureau of education was abandoned for lack of funds.

Among the Eskimo who will participate are many skilled ivory carvers. They hope to create an Eskimo village near Cantwell, the centre of the southern reindeer industry. Mrs. Ashenfelter plans assembling a score of Eskimo women and opening a manufactory of bead and skin work.

Myers Is Acquitted

Manager of Bingo Mines Was Found
Innocent of Charge

Winnipeg.—Joseph Myers, managing director of the Bingo Mines, Limited, was found not guilty by Mr. Justice Curran in the court of King's Bench. Mr. Myers was charged with making false statements with intent to deceive.

No evidence was offered by the defence after R. B. Graham, K.C., brought the Crown's case to a close.

The case closed with dramatic suddenness. Several Crown witnesses who had been subpoenaed were not called to the witness box.

All along, R. A. Bonnar, K.C., senior defence counsel, had argued there was no evidence against his client and made a counter-charge that Myers was being hounded to death. The trial lasted just eight days and all through the proceedings were marked with considerable liveliness.

Will Have Charge Of Two Departments

Hon. J. C. Elliott, Minister of Labor,
To Have Extra Work

Ottawa.—The department of soldiers' civil re-establishment, it is stated, will very shortly be placed under the administration of the minister of labor, Hon. J. C. Elliott. There is no intention, it is understood, to absorb the department of soldiers' civil re-establishment in the department of labor. Official announcement on the matter will probably be made within the next week.

The department of health is also being brought under the administration of the minister of labor. This department though, will not be absorbed in the department of labor.

Prospectors Going To Red Lake

Hudson, Ont.—The spring rush to Hudson will begin in a few days if the mild weather prevails. Prospectors are arriving daily and parties still taking the winter trail into the scene of the gold strike are carrying canoes with them and preparing to stay until the water trail opens.

WANT BLUE SKY LEGISLATION FOR WESTERN CANADA

Edmonton.—Another effort is to be made by the Alberta Government in conjunction with Saskatchewan and Manitoba to secure action by the Dominion Government authorities in the way of blue sky regulations affecting share companies.

Premier Brownlee will take the matter up as one of the items of his forthcoming Ottawa trip, and he is expecting the three provinces once more will try jointly to get the co-operation of the Federal Government.

This effort will be a follow up of representations made by the premier by letter to Rt. Hon. Mackenzie King, calling attention to the new activity in oil speculation and the danger of losses to the public as a result, and urging again the necessity of effectively controlling promotion companies.

Sample advertisements from Alberta newspapers at the same time were sent forward by way of exhibits.

Motion For National Banking Before House

Winnipeg Labor Member Asks For
Approval Of Resolution

Ottawa.—J. S. Woodsworth, Labor, North Centre Winnipeg, asked the house to approve his resolution for the establishment of a national system of banking.

There were, he said, three principal kinds of money in use in Canada. The first was gold, the second bank notes and the third cheques.

More than 90 per cent. of the business of the country was carried on by means of cheques.

Mr. Woodsworth said business men as well as farmers' organizations were beginning to doubt whether the present banking system was the last word in efficiency.

The Labor member mentioned one large farmers' organization in the west which had endorsed his resolution moved last year, which was along lines similar to the one which he had just introduced for the consideration of the members.

Plan To Raise Warships

Vessels Sunk In Eastern Waters During
War Will Be Salvaged

Constantinople.—An Italian salvaging concern has contracted with the Turkish Government for the raising of the 39 ships sunk in the Dardanelles and the Marmora and Black Sea during the great war. The Turkish Government will receive 90 per cent. of the value of the salvaged material, while the Italian company expects to make a considerable profit out of the remaining ten per cent. Nine of the wrecks are British, chiefly destroyers.

Over Million Japs Live Abroad

Tokyo.—Japanese living abroad, including those from Korea and Formosa, total approximately 1,100,000 recent statistics show. Asia has the largest number of Japanese with 686,000. In North America there are 153,000, Oceania has 127,000 and South America 50,000.

Alberta Legislature Adjourns

Announcement Made That Provincial
Elections Will Be Held Prior
To July 18

Edmonton.—The Alberta Legislative Assembly has adjourned after having been in session since February 11. But for the bill transferring the natural resources from the Dominion to the province, it would have been possible to prorogue. This bill cannot be passed by the province until it has reached third reading in the Dominion house. A short session to deal with the bill will be held on or about May 5.

Premier Brownlee announced on Thursday that the general election would be held prior to July 18. It is thought probable that it will be about the first week in July.

Following the change adopted by the British House of Commons, Alberta cabinet members will no longer have to seek re-election on appointment.

A bill was given unanimous third reading empowering the government to raise \$432,500 for capital expenditure and reconditioning of the E.D. & B.C. Railway, and \$1,300,000 to purchase stocks and bonds of the railway.

The telephone system of the province is the object of an inquiry at the present time. While the system is being efficiently conducted, the rates are too low to give an adequate return on the capital investment. Much of the rural part of the system was built as part of a colonization system, and there is a question as to whether part of the cost of this should not be charged to general revenue.

On the recommendation of the agricultural committee, the house decided that the \$112,000 surplus of the 1919 Canada Wheat Board should be invested, and the interest used for the promotion of agricultural research and development of co-operative marketing.

The House unanimously passed a resolution congratulating the Edmonton Grads, world's champion girls' basketball team, on their successful tour of the United States, and wishing them every success. The motion was introduced by J. C. Bowen, leader of the opposition, and seconded by Premier Brownlee. It was stated that the girls were giving Alberta one of the best advertisements it had ever had.

Suggests Interim Report

Would Re-assure Men Whose Business
Suffered From Smuggling

Ottawa.—An interim report from the committee of the House of Commons which is investigating the conduct of the customs department would have a restorative effect upon Canadian business, George F. Henderson, K.C., suggested to the committee. Mr. Henderson is counsel for the Merchants' Protective Association, and he thought that a report at the present time indicating the steps that had been taken to check smuggling, would serve to re-assure many business men who had suffered thereby.

Bishop Ingram To Visit Canada

Victoria.—Rt. Rev. A. F. Winnington Ingram, Bishop of London, will be in Victoria in September to lay the cornerstone of the new Anglican Cathedral to be built here, cathedral authorities have announced.

PROGRESSIVES OF ONTARIO TO HAVE DRY PROGRAMME

Toronto.—Meeting in convention here, members of the Ontario Progressive Association elected former premier E. C. Drury to the presidency of the organization and drew up a platform on which to appeal at the next provincial election.

After much argument the convention adopted a resolution calling for prohibition "in accordance with the expressed will of the people."

The discussion, prior to adoption of the resolution, was ended by E. C. Drury, former premier, who asked what was the sense of elections if a man "cannot say what he stands for before he is elected." He thought he had the right to educate the people to prohibition. If the majority of the people were in favor of prohibition no one had the right to gainsay them, he said, to delegates who opposed the prohibition platform.

Lengthy and detailed criticism of the policies and administration of Premier G. Howard Ferguson was made by Mr. Drury. He declared that the redistribution scheme was a "gerrymander" by which smaller ridings in the province were curtailed so that the Toronto ridings might be enlarged and that Toronto was cut up into electoral districts in such a way as to give the "wet" foreign element in each district preponderance over the "drys."

Must Make Wireless Tests Via New York

British Post Office Refuses to Let
Canada Make Experiments Direct

London.—The British post office has definitely told us that if Canada wants to carry out wireless telephonic tests it must operate via New York. In connection with the agreement now awaiting signature the post office authorities have refused to consider the possibility of Canada carrying out any such experiments direct between Canada and Great Britain under the new Marconi beam system.

This is the statement of Mr. H. M. Short, manager of Canadian Marconi, in reply to the defence published by the British post office to the effect that the reason for confining the telephonic tests to New York was that only the companies there had the adequate facilities.

Arbitrator Appointed

Regina.—W. G. Styles, Regina, former manager of the local branch of the National Trust Company, has been appointed to represent the Saskatchewan Pool Elevators, Ltd., on the arbitration board to determine the purchase price of the Saskatchewan Co-operative Elevator Company's system. Mr. Styles and C. D. Howe, the Co-op. nominee, will appoint a third member of the board.

Proposes Rural Credits Board

Winnipeg.—A board of three men composed of a banker, business man, and a farmer, to administer Manitoba's rural credit system is advocated by Hon. T. C. Norris, Liberal leader. The rural credits now are administered by a government department.

May Handle Cattle Imports

London.—Farmers in the north of England who are interested in the importation of Canadian cattle have submitted proposals to the city corporation of Hull concerning the feasibility of rendering that port capable of handling Canadian importations.

Anniversary Of Confederation

Ottawa.—In the Senate today Hon. Mr. Lewis gave notice of a motion asking parliament to make preparations for the celebration of the sixtieth anniversary of Confederation next year.

Many Suicides In Budapest

Budapest.—Twenty-seven suicides have been reported during a period of 24 hours, many young persons being included. The causes given are unemployment and other distress.

Insolvency In Hungary

Budapest, Hungary.—An unprecedented wave of insolvency is sweeping Hungary. More than 1,000 business houses have failed since January 1.

British Schoolboys for Canadian Farms

Here are some of the party of twenty-five British schoolboys who arrived in Montreal recently under the plan of the Canadian Pacific Railway and Macdonald Agricultural College, St. Anne de Bellevue, Quebec, whereby they will receive a training in the rudiments of Canadian farm methods and will later be placed on farms. The combination of college training and farm employment should give each student a good working start when he finally acquires his own farm. The group shown above was photographed at the C.P.R. Windsor Station, Montreal, on arrival.

Didsbury Well "Spuds In" This Week.

A. R. McNaughton, J. A. McGhee and S. V. Day spent the week-end in the Kevin Sunburst Oil Field. They report a good deal of activity, approximately 40 outfits are drilling and a great many derricks, power plants and storage tanks are being erected. The new well on the Adams-Hibbing lease, which was "brought in" a few days ago, was being hooked up to the pipe line and it was estimated that it would produce from 300 to 500 barrels per day. This well is on the same section as the Didsbury Sunburst lease and is approximately a quarter of a mile away from the site selected for the first Didsbury Sunburst well. The visitors had the experience of witnessing one large gusher "blow in" and the oil shot clear over the top of the derrick. This was a well on the Ferdig lease and is estimated at from 1200 to 1500 barrels per day. They report that Geologist Howard has again carefully inspected the Didsbury Sunburst lease and has chosen the site for the first well. The drilling machinery is on the location now and the derrick is being erected. Driller Elliot expects to "spud in" around the middle of this week and estimates that it will not take over 20 days to complete the well.

Seven new producing wells were brought in last week in the above field.

W.C.T.U. Convention.

The fourteenth annual convention of the Central Alberta district W.C.T.U. will be held in the United Church, Olds, on Tuesday and Wednesday, May 4th and 5th.

The program has been arranged as follows:—

TUESDAY AFTERNOON May 4.

2.00—Devotional Exercises and opening of Convention, Mrs. T. J. Coote; Roll Call; Appointment of Committees, Press and Credential; Treasurers Report, Miss M. A. High, Red Deer. W. C.T.U. and Education—(a) Study Books for Unions; (b) Distribution of Literature, Mrs. McKinney, Special Leaflets from Mrs. McKinney; (c) World's Temperance Sunday, Mrs. Haliburton, Red Deer; (d) L.T.L. Course of Study, Mrs. Tees, Clive; (e) Young People's Work—Medical and Essay Contests; Study course in first aid—The Pageant (f) Press Work, Mrs. Hawkins, Wetaskiwin.

6.00—Banquet in United Church. (at Door). Address, Mrs. L. C. McKinney, Prov. Pres. National Anthem.

WEDNESDAY MORNING MAY 5.

9.30—Devotional Exercises, Minutes of Tuesday Afternoon, Reports from Local Unions, Election of Officers, Paper on organized Motherhood by Didsbury Union. Preparation of Year's Program—(a) Necessity for a Program; (b) How to Prepare; (c) Definite suggestions for copies and samples of program, Lacombe Union; Noonday Prayer and Adjournment.

8.00 p.m.—Praise and Prayer Service.
H. E. Roppel, pastor

THE Annual Conference of the Evangelical church in Canada was held last week, April 20-26, in Zion Church, Kitchener, Ont. The Presiding Elder of the Western Provinces, Rev. L. H. Wagner and wife, Regina, Rev. and Mrs. I. K. Ekk, Edmonton; Rev. F. E. Martin, Morse Sask.; Rev. G. A. Bearcroft, Warner, Alta., and several other brother ministers from the west were in attendance. A lengthy telegram and several official letters with interesting conference reports have already been received here by the pastor. Thus for the informative value of these reports they will be given next Sunday morning instead of the regular sermon.

About thirty members of the Junior League met at the Evangelical church last Thursday evening and spent an enjoyable and profitable hour together in social fellowship. Preceding the lunch served by Mrs. Roppel, a lively nature contest took place, followed by a good variety of bible riddles. These proved very interesting and humorous as well as a good wholesome mental test for boys and girls.

The Temperance program in the church last Friday evening proved very interesting and instructive. About \$20.00 was given out by the W.C.T.U. as prizes to the contestants in appreciation of the splendid work done in the school by the scholars

in their essay work on scientific temperance.

Mrs. Rev. F. E. Martin, Morse, Sask., a former and well known resident of Didsbury is visiting her daughter here, Mrs. H. Erb, at present.

We are rejoicing with Mr. and Mrs. Lloyd Hehn whose little girl is recovering from a severe case of pneumonia. The patient is now at her grandparents, Mr. and Mrs. John Hehn of town.

ST. CYPRIAN'S CHURCH (Church of England)

Services will be held in the above church on the second and fourth Sunday in each month at 11 a.m. and 7.30 p.m. respectively.

Rev. H. Clay,
Incumbent,
Olds, Alta.

C. J. A. Nissen, Pastor
May 2.—German Service,
10.30 a.m.
"Conviction Wrought by the Holy Spirit."
Walther League meeting at 7.30 p.m.

Famous British Naval Feat Vividly Produced.

The British naval raid on Zeebrugge, the glorious exploit of the British Navy on St. George's Day, 1918, and the success of which turned the tide on the western front, has been reproduced in moving pictures in a most wonderful way.

The whole story is thrilling from start to finish, permeated with that British spirit that won the war. The story of Zeebrugge was reproduced under the guidance of the officers of the British Admiralty, surviving officers and marines, who actually took part in the heroic raid, going through their acts again, but this time before the camera.

Some idea of the tremendous task undertaken to put "Zeebrugge" on the screen may be gained when it is known that it cost \$2,500,000 to reproduce, and then the admiralty loaned the ships, etc., so that the British people may get the historic value of the raid.

Coming to the Didsbury Opera House on Wednesday, May 5th.
